Recommendations

- Increase the capacity and support of the system around **4pm peak hours** to improve user experience and prevent slowdowns.
- Launch targeted promotions or reminders on **Mondays** or around the **27th** to increase engagement
- Enhance efficiency and service quality in the **branch channel**, while encouraging gradual adoption of digital channels
- Develop tailored offerings for **middle-aged** customers (high activity) and **young adults** (high transaction value).
- Allocate more resources and security measures to **Fort Worth** and **Las Vegas**, where transaction activity is highest
